I'm currently in my second year working towards a bachelor's degree in Computer Engineering at NOVA FCT. As a future software engineer who loves technology, innovation, and solving real problems, I have experienced significant personal and professional growth during this time. I have gained practical experience through internships at tech companies. Now, I am looking for internship or junior positions where I can improve my skills, face new challenges, grow, contribute, and be part of a team that values learning and innovation.

Academic Background

Bachelor's in Computer Engineering
NOVA FCT, Caparica (2025 – present)
Currently in the 2nd year, with a focus on web development, programming, and technological innovation.

Bachelor's in Computer Engineering - University of Évora
(Oct 2024 – 2025)
Participated in academic and extracurricular projects, with emphasis on problem-solving and practical programming experience.

Technical skills

Web Development: Frontend (React, Next.js, TypeScript, JavaScript, HTML, CSS, Tailwind CSS,SCSS).
Mobile Development: Cordova
Version Control: Git & GitHub
API Integration: RESTful APIs
UI/UX: Responsive Design, Figma (basic)
Programming Languages: C-programming, JavaScript, Java

Licenses And Certifications

React –The Complete Guide (incl. Next.js, Redux)
Udemy 2024.
Gained practical experience building modern web applications using React. This includes state management with Redux, server-side rendering with Next.js, and best practices for scalable frontend development.

The Complete 2024 Web Development Bootcamp
Udemy · 2024.
Developed a strong foundation in full stack Web development covering HTML, CSS, JavaScript, Node.js, Express, databases, and deploying real-world web projects from start to finish

Professional skills

Problem Solving. Teamwork and Collaboration. Adaptability and Flexibility. Communication. Time Management
Continuous Learning

Professional Experience

Junior Frontend Developer – Trocah, United Kingdom
(Mar 2025 – Present) [Remote]
My main responsibilities included contributing to the development and maintenance of web applications, collaborating with senior developers to implement user-friendly features, and integrating RESTful APIs. I also took part in code reviews, testing, and debugging to ensure high-quality results. Through this role, I developed strong communication, teamwork, and problem-solving skills.

Mobile App Developer Intern – Bincom Dev Center, Nigeria
(Aug 2024 – Sep 2024) [Remote]
I was responsible for developing and maintaining mobile applications, translating business requirements into functional solutions, and optimizing app performance. I worked closely with cross-functional teams and helped resolve technical issues efficiently. This internship helped me improve my adaptability, technical communication, and ability to work independently and as part of a team.

Frontend Web Developer Intern – Intern Choice India
(Nov 2023 – Dec 2023) [Remote]
My tasks included creating responsive web pages, integrating interactive elements, and ensuring compatibility across different browsers. I maintained project documentation and used version control to manage code changes. This experience improved my time management, attention to detail, and practical problem-solving skills.

Personal Projects
Portfolio: https://ogunsola-abiola-daniel.vercel.app/
A glimpse into my journey as a developer — where I experiment, learn, and build projects that bring ideas to life.

Hobbies

Coding. Gaming. Travels and Vacations, Outdoor Sports (Football, Table Tennis, Surfing). Music (Lofi, Epic sounds, orchestra, Instrumentals)

Languages

English (C2). Portugues(A1)
